**Subject:** bottled water in Pavillion

I just spoke with Luis Meeks he wanted to give me an update.

He informed me that about 20 people have signed up for sisterns. However, he has not an was told that since he did not that his bottled water delivery would end in August when the loading dock for the water hauling in Pavillion was completed. He also wanted to know what happened with a response to his letter to the administrator. I told him I would check into it but I thought it was either in the mail or will be shortly.

"All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA, and to usher in a new era of open Government. The presumption of disclosure should be applied to all decisions involving FOIA.

The presumption of disclosure also means that agencies should take affirmative steps to make information public. They should not wait for specific requests from the public. All agencies should use modern technology to inform citizens about what is known and done by their Government. Disclosure should be timely."
